

Dear Provider,

Your patient, recently expressed interest in our medication adherence program. This program gives patients an easy way to manage their medications and the support they need to improve their wellness.

With our adherence program, we can help you:

- ✓ Improve adherence, patient outcomes, and Star Ratings
- ✓ Reduce med-related readmissions and avoid penalties
- ✓ Align all medication refills and refill requests — replacing monthly lab work and office visits with a predictable monthly schedule

Managing medications has never been easier.

- ✓ Organized by date and time in clearly labeled pouches
- ✓ No more unidentified pills rolling around in weekly pill containers
- ✓ OTCs and supplements able to be packaged alongside your patient's prescription medications

How does the program work?

- 1) Use the order form attached to send all scripts to us
- 2) Review the Star Ratings Questionnaire included. We use this during monthly calls with your patient to help you achieve better outcomes and a higher quality rating.
- 3) We synchronize your patient's medications, then package and deliver them to your patient every 28 days.

Please send ALL med changes directly to our pharmacy.

E-Scribe: Kirk's Phcy at Hartland

Fax: 253-848-3119

Phone: 253-848-2011

Please consider making medication changes effective on the next fill date when appropriate.
